

HERO4 Black

Wearable and Mountable 4K Video and Still Photo Action Camera

The most advanced GoPro ever, the HERO4 Black takes Emmy award-winning performance to a whole new level. It features improved image quality, 2x more powerful processor and 2x faster video frame rates than its predecessor. It has built-in Wi-Fi, Bluetooth and an ultra wide angle glass lens. GoPro App + lets you control the camera remotely. It can record action sports at up to 4K Professional, 2.7K, 1440p, Full HD 1920 x 1080p as well as 960p, 720p and 480p. Plus, it supports NTSC and PAL. For still images, it captures 12-megapixel photos at an amazing 30 fps. Want to go underwater? The camera comes with a rugged, waterproof

housing that can go down to a depth of 131'. It also comes with several mounts and mounting hardware and is compatible with over 60 optional GoPro mounts and accessories.

- Ultra-sharp aspherical glass lens supports immersive, wide angle capture of your favorite activities. SuperView™ mode captures the world's most immersive wide angle perspective.
- Captures video at 4K Cinema (30 fps), 2.7K Cinema (50 fps), 1440p (80 fps), 1080p Full HD (120 fps), 960p HD (120 fps), 720p HD (120 fps) and 480p WVGA (240 fps).
- Three selectable FOV settings—Ultra Wide, Medium and Narrow allow for a broad range of perspectives.
- Auto Low Light mode intelligently adjusts frame rate for stunning low light performance.
- Advanced camera settings include video looping and continuous photo. New Protune settings deliver cinema-quality capture and advanced manual control of color, ISO limit, exposure and more for photos and video.
- Control the camera remotely, preview shots and playback content via iOS smartphones and tablets running the free GoPro App+. It also makes it easy to share your photos and videos via email, text, Instagram, Facebook and more.
- microSD card slot and Micro HDMI output.

- QuikCapture enables you to power on and record automatically with the press of a button
- Enhanced audio supports AAC audio compression with AGC. Captures increased dynamic range with reduced distortion.
- QuikCapture lets you power on and record automatically with the press of a button.
- Dedicated button enables quick access to camera settings. Simplified menus make navigating easier than ever.
- HiLight Tag lets you tag video highlights while recording for easy playback, editing and sharing.
- Time lapse video in 0.5, 1, 2, 5, 10, 30 or 60 second intervals.
- Customizable exposure settings for nighttime shooting: Night Photo (10, 15, 20, 30 second exposure times) and Night Lapse (10, 15, 20, 30 second exposure times/up to 60 min. intervals).
- Control the camera remotely, preview shots and playback content via iOS smartphones and tablets running the free GoPro App+. It also makes it easy to share your photos and videos via email, text, Instagram, Facebook and more.
- Port for optional accessories like the 3.5mm stereo mic adapter.

HERO4 Black: Includes standard housing, skeleton backdoor, rechargeable battery, flat and curved adhesive mounts, quick release buckles, 3-way pivot arm and USB charging cable.

#GOH4AB **499.99**

HERO4 Silver

Wearable and Mountable Video and Still Photo Action Camera

Capture your world in an all-new way with HERO4 Silver, the first-ever GoPro to feature a built-in touch display. Controlling the camera, framing shots and playing back content is ultra convenient—just view, tap and swipe the screen. HERO4 Silver captures 1080p60 and 720p120 video with lifelike clarity, plus 12MP photos at 30 fps. Experience-enhancing features include HiLight Tag, which lets you tag video highlights for easy playback, editing and sharing, and QuikCapture, which allows you to power on the camera and start recording with the press of a button. Waterproof to 131', HERO4 Silver combines versatility and pro-quality capture with the convenience of a touch display. It comes with several mounts and mounting hardware and is compatible with over 60 optional GoPro mounts and accessories.

- Built-in touch display for easy camera control, shot-framing and playback
- Records professional 1080p60 and 720p120 video and 12MP photos at up to 30 frames per second.
- SuperView™ captures the world's most immersive field of view
- Built-in Wi-Fi and Bluetooth deliver enhanced connectivity to the GoPro App, optional Smart Remote and more.
- Three selectable FOV settings—Ultra Wide, Medium and Narrow allow for a broad range of perspectives.

- Auto Low Light mode intelligently adjusts frame rate for stunning low light performance.
- HiLight Tag lets you tag video highlights while recording for easy playback, editing and sharing.
- QuikCapture enables you to power on and record automatically with the press of a button.
- Protune settings deliver cinema-quality capture and advanced manual control of color, ISO limit, exposure and more for photos and video.

- Customizable exposure settings for nighttime shooting: Night Photo (10, 15, 20, 30 second exposure times) and Night Lapse (10, 15, 20, 30 second exposure times/up to 60 min. intervals).
- Dedicated button enables quick access to camera settings. Simplified menus make navigating easier than ever.
- Enhanced audio supports AAC audio compression with AGC. Captures increased dynamic range with reduced distortion.
- Port for optional accessories like the 3.5mm stereo mic adapter.

HERO4 Silver: Includes standard housing, skeleton + touch backdoors, rechargeable battery, flat and curved adhesive mounts, quick release buckles, 3-way pivot arm and USB charging cable (GOH4AS) **399.99**

HERO3+ Silver

HERO3+ Silver captures gorgeous, professional-quality 1080p60 HD video and 10MP photos at up to 10 fps. Built-in Wi-Fi enables you to use the GoPro App to control the camera remotely, preview shots and share your favorites on Facebook, Twitter and more. Compatible with all GoPro mounts, you can wear it or attach it to your gear for immersive POV footage of your favorite activities. It's waterproof to 131' and built tough for all of life's adventures. Combined with stunning low-light performance, high-performance audio and an ultra-wide angle glass lens, HERO3+ Silver makes capturing and sharing your life easier than ever. (GOH3PSE) **299.99**

HERO3 White

HERO3 White captures 1080p30 HD video for gorgeous footage of every adventure. A variety of photo modes ensure your best shots yet—choose from 5MP single photos, Time Lapse photos or Burst photos at up to 3 fps. Built-in Wi-Fi supports the GoPro App, enabling you to control the camera remotely using your phone or tablet, view the photos and videos you've captured, and quickly share content on Facebook, Twitter and more. HERO3 White is compatible with all GoPro mounts, so you can wear it or attach it to your gear for immersive POV footage during your favorite activities. Plus, it's ultra durable and waterproof to 131', so it goes wherever you go to capture life without a worry. (GOCHDHE302) **199.99**

Original GoPro Accessories

Battery BacPac:

Attaching to the back of your GoPro camera, the integrated rechargeable lithium-ion battery doubles the camera's battery life. LCD window indicates remaining capacity when in operation and charge status when charging. LED displays recording status. Charge using and GoPro charger, other USB charger or a computer (GOABPAK304)**49.99**

**Chest Mount Harness:**

Get a new view. With a lower line of sight the Chest Harness will capture arms, poles, handlebars, legs and more - giving the viewer a true first person experience. Works with all GoPro quick-release cameras and is one size fits all.

#GOCMH.....**39.99**

Suction Cup Mount:

Attaches the camera to cars, motorcycles boats, and more. Engineered for a broad range of motion and stability, it's been proven at speeds of 150+ mph. Includes a standard base and a quick release base for moving conveniently between shots and locations. (GOAUCMT2).....**39.99**

**Sportsman Mount:**

Allows you to mount one or two GoPro cameras to gun barrels, fishing rods and bow components that are 0.4 to 1" in diameter. Compatible with most shotguns, rifles, revolvers, airsoft guns, paintball guns and more. You can mount one camera front-facing and one camera rear-facing. This will ensure that you capture immersive footage from a variety of angles and perspectives. (GOASGUM)**69.99**

**The Handler:**

Get a solid grip on your GoPro and keep it afloat with The Handler. This buoyant floating hand grip delivers increased stability and control, making it easy to aim the camera and frame your shots with confidence. It floats any amera plus BacPac so you can shoot in and around the water without a worry. Includes wrist strap and "The Tool". (GOTH).....**29.99**

**Blackout Housing:**

Lets you keeps a low profile thanks to its matte black finish. Perfect for special ops, and capturing footage without drawing attention to the camera. LCD concealment stickers help eliminate light reflection from the housing's LCD window. Like the standard housing, is waterproof to 131'. (GOAHBSH001)**44.99**

**The Frame:**

Simplest, lightest way to mount a HERO3 or HERO3+ action camera. It is suitable for applications where size and weight outweigh the protection a housing provides. It features the standard two-prong mounting interface allowing the camera to be mounted on most accessories for GoPro, and will support the attachment of a BacPac accessory. (GOANDFR301).....**39.99**

**LCD Touch BacPac:**

A removable LCD touch screen, it attaches easily to the back of the camera allowing you to preview and playback photos and video including instant slow-motion playback. It also allows convenient touchscreen control of camera settings. Has an integrated speaker with volume control and headphone jack. (GOALCDB304)**79.99**

**Head Strap + QuickClip:**

Fully adjustable, the strap can be worn over a helmet or on your head to capture footage from a headlamp-like perspective. QuickClip enables low-profile mounting, and can be used to attach your GoPro to a backwards baseball cap or other 3mm to 10mm thick object. (GOACHOM)**13.00**

**HERO3 Wrist Housing:**

Secures your GoPro flat against your wrist, so you can quickly pivot the camera upright to shoot photos or video. When not recording, you'll have full use of both hands, making it perfect for surfing, snorkeling, climbing and skiing. Fits over ski gloves or jackets with the included adapter. Waterproof to 197'. (GOH3WH)**49.99**

**3-Way 3-in-1 Mount:**

Designed to work as a camera grip, an extension arm, or mini tripod. It measures 7.5" when folded, and 20" when fully extend. The extension arm is folding to help you get the right amount of reach, or it can be removed entirely if you just want the grip part. Tucked away inside the hand grip is a mini tripod that connects to the base or to the GoPro housing. (GO3WGAT) ...**69.99**

**The Tool:**

Makes it easy to tighten your GoPro thumb screws to prevent the camera from shifting during high-speed, high-vibration activities. It's perfect when mounting the camera using multiple extension arms, or adjusting thumb screws in cold conditions with numb fingers. As a bonus, it doubles as a bottle opener. #GOTT**4.99**

**Red Dive Filter for Dive Housing:**

Color correction filter designed to remove cyan color cast while using the camera in blue salt water or clear fresh water at depths between 15 and 70'. The filter is specifically for the Red Dive Housing; if you will use the Standard Housing a different filter is required. #GOH3WHDF**48.00**

**Dive Housing:**

Features the same 197' depth rating as the standard housing, and is compatible with both the HERO3 and HERO3+. The lens port features flat glass, and the housing not only provides waterproofing, it can also help protect your GoPro from other hazards, such as dust and mud. Two-pronged, thumbscrew mounting interface allows attachment to most mounting accessories. (GOAHDEH301).....**59.99**

**Dual HERO System:**

Unified housing that holds two HERO3+ Black Edition cameras so that you can record 3D video or use the camera's 12MP sensor to take 3D still photos. Free downloadable Studiosoftware lets you combine the 2D images into a single, 3D-ready file. Also includes two pairs of 3D glasses. #GOAHD3D301.....**199.99**

**Dual USB Battery Charger:**

USB charger that holds two batteries, and will charge them simultaneously. It is designed to draw USB bus power from most USB power sources, including USB wall adapters, computers, and GoPro Auto and Wall Chargers. Dual LED lights indicate the charge status of each battery. (GOAHBBP301)**24.75**

STEADICAM. Smoothee Kit

With GoPro Hero Mount

Capture incredible video and still images without the shakes normally associated with hand-held shooting. Smoothee lets you "fly" wherever the scene takes you, up and down steps, indoors and outside, through crowds, almost anywhere, with precise, elegant control and ease. Its quick release mount lets you instantly swap camera connections between your Smoothee and any tripod. The comfortable ergonomic hand-grip folds up securely when not in use. (STSIP56)**149.95**

**GOPOLE Reach**

14-40" Extension Pole

Extend the capabilities of your GoPro camera by getting closer to the action and capturing unique angles. Shoot your subject with stability and precision, or flip the camera around on the swivel head to capture 180° POV angles of yourself. Telescoping pole and twist locks allow it to be extended and locked between 14 and 40".

#GOGPR9**54.99****SP GADGETS** POV Case for GoPro Cameras

Semi-rigid clamshell case features a pre-cut foam interior to organize and keep your gear secure. The camera compartment will fit the HERO in its housing with the LCD BacPac attached, and provides slots that accommodate mounts, cables extra

batteries, memory cards, and other accessories.

X-Small in Black (SP53030) or Blue (SP53031)**19.99**

Made of military-grade aluminum, this impactproof, crash-proof, and crushproof cage protects your camera with the underwater housing. Or, use the Deluxe Accessory Kit and attach the camera without the housing. Over twenty 1/4"-20 threads allow you to attach a variety of accessories. You can under- or side-sling the HERO3 as well, to capture otherwise impossible perspectives. (RE31370003)**99.00**

Deluxe Accessory Kit for the Cobalt Cage (RE31270002)**29.95****GOPOLE Bobber**

Floating Hand Grip

To ensure your camera doesn't slip away though, the Bobber features a texturized hand-grip as well as a carabiner and wrist strap lanyard. But if you should lose hold of it, the Bobber will keep it afloat, while fluorescent yellow endcaps make it easy to spot. Three-prong interface is compatible with most GoPro housings and frames and will allow the camera to tilt. A locking thumbscrew is included. (GOGPB11)**29.99**

**SP GADGETS** 39" Remote Pole

39" Remote Pole

Telescoping pole mount for HERO cameras. Has a twist-locking design and extends from 13.6 to 39". A three-prong mount allows it to attach to most HERO housings. Dual-diameter EVA handgrip features a housing to hold the Wi-Fi Remote, allowing you to set record Start/Stop while the camera is out of reach.

- 360° swivel head with three-prong mount to fit most GoPro HERO housings
- Adjustable wrist strap and carabiner

#SP53021**69.95****MicW. iGoMic**

Stereo Microphone for GoPro Cameras

Featuring a matched pair of capsules configured at 90° X-Y coincident, the iGoMic provides a wide stereo image designed to reproduce natural depth for recording music, sports events, and ambient sound.

The iGoMic can also be connected to DSLRs, camcorders, or audio recorders that have 3.5mm mini-jack mic input and can supply plug-in power.

#MIIGOMICKIT**159.00**

shown in use

**XB-500 Hard Case** for GoPro Camera

Hardshell case with a custom cut foam interior, it will fit a GoPro Hero type actioncam, four Skeleton doors, memory card, battery and BacPac. Has additional cut-out with space to give you room for various other accessories. Just 10 x 7" and 3 lbs.

#GOXB500**49.00**XB-550 with Lower Accessories Tray (GOXB550)**59.00**XB-552 case for two cameras with lower tray (GOXB552)**59.00**For two cameras with custom lower tray (GOXB652)**85.00****BRUNTON. ALLDAY**

Extended Battery Back for GoPro HERO3+

4000mAh battery, the ALLDAY can extend HERO3+ run-time by up to 4x compared to using the standard battery alone. It features its own back door that seals onto HERO3+ housing allowing the system to be water resistant under IPX5 specifications (however, it is not fully water-tight). A standard USB type A port also allows you to use it as backup power for smartphones and other mobile devices that draw less than one amp on the go.

#BRFALLDAYBK**49.99****GOPOLE Scenelapse**

360° Time Lapse Unit

Set the angle and duration and let the Scenelapse do the rest. This time-lapse unit attaches to any GoPro camera while also offering the ability to connect additional GoPole mounts to it via the removable GoPro connection and 1/4"-20 inserts. Scenelapse rotates up to 360° in 60 minutes allowing users to capture the most amazing panorama photos and videos with ease. (GOGPSL16)**34.99**

**SP GADGETS****Power Bar Duo Charging Station**

Mobile charger that can hold two HERO3 or HERO3+ batteries and features a 12Wh internal battery for use in the field. When working from AC power you can charge up to three HERO batteries at once. Two in the charger and one in the camera via USB. When AC current is not available the internal battery has enough juice to fully charge two HERO batteries. The internal battery takes about four hours to charge fully.

#SP53040**Log-on****SRP BlurFix3 S0**

55mm Filter Adapter

Allows you to mount 55mm underwater filters to your HERO3 action camera housing. Since water alters light at depth, tending to absorb red light, underwater filters are essential for ensuring proper white balance. Constructed from CNC-machined Delrin, the adapter snaps over the front of the HERO3 Housing lens port and is designed for easy removal during descent to release any micro bubbles.

#SN55BF3N**38.00****BlurFix3+ 55 Adapter with CYD Filter**

Features a URPro Dome CY color-correction filter pre-installed on a BlurFix3+ 55 filter adapter, which slips over the Hero3+ standard underwater housing. The CY filter provides consistent cyan color correction from edge to edge and is designed for use in tropical blue water between 12 and 60' deep. (Color is improved at even greater depths depending on water conditions.) The filter adapter can be used in three configurations with/without included o-rings: unsealed, sealed/air filled, and sealed/liquid filled. (SNBF3PCY)**73.15**

POLAR PRO**Red Glass Dive Filter**

Fits the lens port of the HERO3+ housing and is designed to ensure the camera retains proper white balance in blue or tropical waters. This glass color-correction filter is recommended for depths between 10 and 80'. The filter is built into a slim frame that snaps on and off the lens port of the GoPro's underwater housing. It also features a tether cord to help you avoid losing the filter while diving and a scratch-resistant microfiber pouch to store it in. *(POP1001)*.....**29.99**

**HITCASE****ChestR Mount**

Use the ChestR Mount to wear your GoPro camera on your chest. You can rotate and pivot the case or camera, allowing you to shoot photos or videos from many different angles. Additional features include adjustable straps, a neoprene body for comfort and a polycarbonate chest plate for durability. A built-in pocket holds small accessories, and integrated loops hold your headphone cables so they won't get tangled. *(HHC25000)*.....**49.99**

**TEHKRON Cage Pro**

Powered Cage for GoPro HERO3/3+

Incorporates a powering system based on LP-E6 type batteries. The cage not only protects the camera, it provides a top handle to give you a wider range of hand-held shooting options. A series of 1/4"-20 and 3/8"-16 mounting points allow you to attach accessories directly to the cage, 62mm filter thread allows you to add on filters, such as polarizers and NDs. *(XPGPCAGE)*.....**179.00**

**Dual XLR to Mini USB Stereo Audio Converter**

Allows you to use professional XLR mics with the GoPro HERO3 and HERO3+. It provides a built-in 18" cable terminating in a GoPro-friendly mini USB (male) connector. This is a passive adapter, meaning it is suitable for dynamic mics or mics that have their own power source. It will not supply phantom power. There is a 1/4"-20 socket to mount the adapter to tripods and rigs. *#INGPXLRA*.....**60.00**

**KNEKT GP3+ Trigger**

Gives you one-handed control of your camera's video start/stop and shutter release button. Balanced to match the weight of the camera, the GP3+ sports a spring trigger mechanism providing an instant shutter reaction and solid, tactile feedback. Full cage design provides maximum protection against impact. Features a machined polymer handle with non-slip inserts, corrosion resistant military grade aluminum, and stainless steel construction. Also includes three 1/4"-20 threads for use with accessories. *(KNGP3PTHGP)*.....**149.99**

**POLAR PRO****"Frame" Glass ND Filter**

The "Frame" glass Neutral Density filter slides directly over the lens of the naked HERO3 or HERO3+ and can be used alongside the Frame Mount. It reduces exposure by 3 stops, allowing you to shoot bright scenes at slower shutter speeds. A slower shutter speed allows fast-moving objects to retain a more natural-looking motion blur and can help reduce the apparent effects of vibration when mounting the GoPro HERO to an RC helicopter or vehicle. *(POP1006)*.....**29.99**

**FLIP3.1 Combo Package**

SHALLOW, DIVE, and DEEP Underwater Color Correction Filters

Excellent underwater video requires the use of multiple filters. This package includes all essential filters and the TOP FLIP mount. Install the DIVE filter on the side for best color from 20-50', and select either the SHALLOW or DEEP filter for the top mount depending on your dive plan. Stop torturing your friends with terrible underwater color and take your video to the next level. *(FLSTFCPG)*.....**134.00**

**WATSON AC/DC Charger**

Charges any GoPro Hero 3 type li-ion battery. Runs on 100-240VAC, allowing for worldwide use. It features a fold-out 2-prong US plug and comes with a European plug adapter as well as a 12VDC car charger. It also features a USB power output to charge phones, digital cameras, and other devices with a USB power input – even while charging the Hero battery. Can also be used for other batteries via the purchase of an additional battery adapter plate. *#WACCGPAHDBT3*.....**14.99**

**Witronix Battery Eliminator**

Powering a HERO3 or HERO3+ from an external USB power source. Since the cameras support USB charging, you can use the Battery Eliminator to power the camera from nearly any 5VDC USB source: a laptop computer, portable powering station, car USB port, or even an AC wall adapter. In addition, using optional transformers, you can adapt it to power from 12VDC sources such as car batteries or professional video battery systems. *(SWDVGPG3USB)*.....**30.00**

**[qudos] ACTION Action Cam Video Light**

Surf after sunset. Ride at midnight. Dive to new depths: the [Qudos] Action will highlight the night. Offering unprecedented freedom for nocturnal thrill-seekers, the [Qudos] Action seamlessly partners with the Hero3/Hero3+ delivering a mighty 400 lumens of light from its three powerful Cree LEDs. The light also has multiple modes to adjust brightness and light speed, allowing you to control shots in any scene or location – in deep underwater, high in the sky, or anywhere in between. In Black (*QUALB*) or Silver (*QUALS*).....**119.95**

**POLAR PRO Pro Pronic**

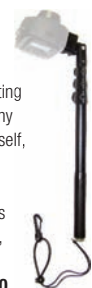

GoPro Microphone Kit

Capture increased audio levels as well as higher definition sound. The ProMic includes a fixed right angle adapter that allows you to keep the mic stable and close to the camera for a sleek look. Perfect for motor-sports, concerts, and narration, includes a removable foam wind-screen that securely slides on when you need it. This is a major advantage when filming at higher-speeds or on windy days. *#POPMIC234*.....**49.99**

**Sealife AquaPod**

Underwater Monopod

Bundled with GoPro adapter and quick-release mounting plate, the AquaPod can be used to take pictures of any subject beneath the water's surface – including yourself, by simply holding it out in front of you. Even has a built-in self-image mirror. Constructed from durable polycarbonate, TPE, anodized aluminum and stainless steel to resist corrosion. It is extendable from 18-53", and is lightweight for transport. Includes a lanyard with a clip and a rubber grip. *(SESL913)*.....**69.00**

**WATSON Duo LCD Charger**

Simultaneously charges two of any GoPro Hero 3 type lithium-ion battery. Runs on AC or on 12/24V DC power source (a DC car charger is also included). Also features a USB power output to charge phones, digital cameras, and other devices with a USB power input. LCD display that graphically shows charge status for both batteries. Can also be used for other batteries via additional battery adapter plate. *(WADLCDAHDBT)*.....**79.00**

The water-resistant HDR-AZ1 features 1080p60 recording in XAVC S format at 50 Mbps or MP4 mode. It can take 11.9MP still photos with the option for single shot, burst shooting at up to 8 fps, and interval recording for creating time-lapse effects. For use in the water, it includes the SPK-AZ1 housing with a depth rating of 16'. The HDR-AZ1 features Wi-Fi for live-viewing and remote operation using a smartphone or other mobile device, or the optional RM-LVR2 Live View Remote Watch. You can also live stream to the web when the camera is tethered to a mobile device that has an Internet connection. The RM-LVR2V is a wrist-worn remote that allows you to view a live image from the camera as well as operate record start/stop, take photos, and more. It also allows fast playback, scrubbing through your footage at 5, 10, 30 or 60x normal speed.

HDR-AZ1 (SOHDRAZ1W)**\$249.99**HDR-AZ1VR w/Live View Remote Watch (SOHDRAZ1VRW) ..**\$349.99****HDR-AS100V Wearable Point-of-View HD Action Camcorder**

Weighing just 3 oz. with battery, HDR-AS100V features a 16MP Exmor R CMOS sensor, ultra-wide angle Zeiss lens, and SteadyShot image stabilization with roll stability to deliver stunningly smooth video. It records in high quality XAVC S format, as well as 1080/24p video and high-speed 720/120p or 720/240p shooting for slow motion footage with quality audio. It can capture 13.5MP still images and offers 2MP (1920 x 1080) time-lapse photography. It has a Memory Stick Micro and Micro SD/SDHC slot, built-in stereo mic and an HDMI output. Built-in Wi-Fi with NFC allows remote control and viewing via smartphone. Optional "Live-View Remote" gives you hands free control and remote viewing. Built-in GPS plots location and calculates telemetry. Comes with rechargeable battery, adhesive mounts, and a rugged waterproof case that lets you record down to 197'. The body is splash-proof, so shooters can use it in rain or snow without the supplied waterproof case.

HDR-AS100V (SOHDRA100V)**\$298.00**HDR-AS100 with Live-View Remote (SOHDRA100VR).....**\$398.00****HDR-AS20 HD POV Action Cam**

**STREAM**

Shoot great HD video, tag interesting shots while you're recording, edit videos while in the field, and share your videos. The modular system design allows you to mount the STREAM almost anywhere—helmet, shoulder strap, roll cage, ski tip, power boat windshield, firearm, you name it. Designed for seamless integration, Stream is a RTSP (Real Time Streaming Protocol) enabled device capable of streaming full HD 1080p video wirelessly or via IP over USB. Stream combines a native HD sensor with advanced exposure controls and settings to create stunning video under both optimal and challenging light conditions. Can be controlled from any browser-based device. Meeting IP67 standards, Stream is waterproof, shockproof, and dustproof. WiFi and USB enabled, Stream can be configured as an access point or client to existing networks, seamlessly melding with other devices. (VIPOV401).....**499.99**

**GARMIN** VIRB • VIRB Elite

Water-resistant, the cameras record 1080p HD video and 16 MP still photos to MicroSD/SDHC/SDXC card. They can also shoot stills while filming; can create slow motion footage, captured at 120 fps in 848 x 480 resolution; have an interval mode for time lapse video, and can shoot 8MP photos in 10-second bursts. Otherwise the same, VIRB Elite adds Wi-Fi for connection to a smartphone, tablet, or computer so that you can preview your shot, control camera settings, take a photo, or start/stop recording. It also features GPS for data stamping and GPS-based "smart" recording profiles such as Skiing Mode, which automatically records your downhill runs but stops recording while you're waiting in the lift line.

DJI

Phantom Quadcopter with GoPro Mount

Ideal for videographers and photographers looking to open up a whole new range of shooting possibilities, this quad-rotor RC helicopter is an aerial platform for a GoPro HERO action camera. The Phantom can achieve a maximum horizontal flight speed of 33 ft/s and can ascend and descend at up to 20 ft/s. It comes with 2.4GHz Transmitter (TX) that features an operational range of up to 984' line-of-sight. The controller draws power from readily available AA batteries.

It uses the Naza-M V2 flight control system to maintain flight stability and provide assisted flying features. The Phantom comes configured with two flight modes, GPS Mode and GPS Attitude Mode. Additional functionality can be unlocked using the Naza Assistant Software for desktop computers running Windows only. (DJQCGPMV111).....**479.00**

Phantom FC40

Quadcopter with FPV Camera and Transmitter

Ideal choice for those getting started with aerial cinematography, the FC40 has its own built-in smart camera with 720p/30fps HD video support, and iOS or Android app control. Using a 2.4GHz Wi-Fi connection, it provides a full FPV experience at up to 330'. The FC40 uses the Naza-M V2 flight control system to maintain flight stability and provide assisted flying features. Out of the box, the FC40 comes configured with two GPS flight modes, GPS Mode and GPS Attitude Mode. Additional functionality can be unlocked using the Naza Assistant Software for desktop computers running Windows only. This version of the FC40 ships "ready-to-fly", meaning that a 6-channel, 5.8GHz transmitter is included and pre-bound with the aircraft, and that only minimal assembly is required. (DJJPC40).....**499.00**

Phantom 2 Quadcopter with Zenmuse H3-3D 3-axis Gimbal

A second generation Phantom quad-rotor RC helicopter, it features a larger battery, improved prop design and up to 22 minutes flying time. Operational range is up to 3280' line-of-sight. The Gimbal is a 3-axis, motorized stabilizer for mounting a GoPro HERO3 camera. It helps isolate the camera from vibration incurred by the rotors to give you the smoothest possible aerial video. In addition, it allows the camera to tilt between -130 to +50° with a precision of ±0.08°. Tilting is controlled via a lever that attaches to the back of the transmitter. Program your flight path from an iPad with the 16 waypoint Ground Station system, to shoot with more precision than ever. Install an iOSD to see what the camera sees and lose yourself in picture quality so good it will feel like you're in the sky yourself. (DJP2H33D).....**829.00**

Shown with GoPro Hero3 (not included)

Phantom 2 Vision

Quadcopter with Integrated FPV Camera

Complete aerial camera system ready to fly in minutes. As the Phantom soars, record 1080p video and 14MP still photos to a MicroSD/SDHC card. Live viewing and control is wireless via Wi-Fi using an app available for iPhone or Android smartphones. Fly up to 25 minutes with the included intelligent LiPo battery and be amazed at the professional-quality aerial footage you can achieve, even with no prior experience. Other features include Intelligent Orientation Control, ready-to-fly design and advanced GPS-guided autonomous functionality unleashed through the free available software.

- Included Wi-Fi extender lets you monitor real-time flight data along with live camera view up to 980' away.
- Integrated GPS auto-pilot system offers position holding, provides altitude lock along with stable hovering giving you constant stable flight.

#DJIPV.....**799.00**

Phantom 2 Vision+

Quadcopter with Gimbal-Stabilized 1080p Camera

Based on the same air frame and camera as the Phantom 2 Vision, it steps-up an integrated 3-axis gimbal that makes ideal for shooting aerial footage and photos. The camera can take 14MP Adobe DNG RAW photos, and can record video in 1080p Full HD at 30 fps or 720p at 60 fps for creating slow motion effects. The Phantom 2 Vision+ includes a radio controller-(transmitter) with a line-of-sight range of up to 2625', depending on conditions. The camera is controlled via 2.4GHz Wi-Fi using an app available for iOS and Android devices. Using the supplied mount, you can attach your smartphone directly to the controller, giving you a "heads up" display directly from the camera's point-of-view. From the app you will also be able to start and stop video recording, take a snapshot and even tilt the camera up or down. Fly up to 25 minutes with the included 5200 mAh battery. #DJP2VP.....**1159.00**

Spreading Wings S900 Powerful Hexacopter for the Demanding Filmmaker

Supporting a total takeoff weight of 18 pounds, the S900 with Zenmuse Z15 gimbal is a hexacopter that allows you to capture aerial video using either a Blackmagic Pocket Camera, Panasonic DMC-GH3/GH4 or Sony NEX-7. It features carbon fiber frame arms to cut down on weight, which fold down for storage and transport. The included Z15 gimbal helps keep the camera stabilized and isolated from vibration, and allows you to pan, tilt, and even cant the camera for more dynamic shots. Used with the optional 6S 12000mAh battery, the S900 can fly for up to 18 minutes fully laden. Features the DJI A2 flight control system, a collection of hardware which acts as the hexacopter's brains. It takes data from the GPS, gyros, barometer, and other sensors while applying any pilot inputs to help ensure stable flying and smooth video. The A2 can be configured for different flying styles and pilot skill levels, with features like Intelligent Orientation Control (IOC), Point of Interest (POI), one motor fail protection, and a Return-to-Home fail safe in the event contact is lost with the transmitter. Thanks to CAN-bus peripheral ports, A2 can integrate other accessories, such as the Lightbridge unified video, data, and control system.

Spreading Wings S1000 Professional Octocopter

Stepping up, the S1000 can support a take-off weight of up to 24 pounds. This means it can handle camera payloads up to the size of a Canon EOS 5D Mark III. With a 21 pound take-off weight and a 15,000mAh battery it offers flying time of approximately 15 minutes. For stabilizing and moving a camera in flight, the S1000 is compatible with any of the Zenmuse Z15 series gimbals. The airframe features a dampened gimbal mounting bracket with a low mounting position. Additionally, the landing gear can be raised, allowing an unobstructed 360° of visibility. All eight arms can be completely folded down and the 1552 folding propeller can be tucked away, minimizing the S1000 for transportation. To fly, simply lift the frame arms up, lock them in place and power up the system. Like the S900 it features the DJI A2 flight control system which includes the main controller, IMU, GPS, PMU, and Bluetooth LED indicator. (DJS1000A2).....**Log-on**

Lightbridge 2.4 GHz Full HD Video Downlink with OSD and Control

Lightbridge provides a complete FPV wireless relay solution, combining the video downlink, OSD (on screen display) data, and control signal in one system. A module installs in or on the aircraft and features HDMI and composite video inputs. It also communicates with the flight computer, sending pilot inputs from the radio controller (transmitter) to the flight controller and receiving flight data from the instrumentation for the sake of the OSD. It can also send a control signal to the gimbal for in-flight operation of camera movements.

The ground end component looks like wireless router. It can be battery powered from an internal 4000 mAh battery that lasts up to 4.5 hours or optional 3S to 6S Li-Po battery. To operate the aircraft, the system lets you use your regular 2.4GHz radio controller and will also receive a gimbal control signal. To view the video feed and OSD overlay you need an Android mobile device running the Lightbridge app. There is a powered USB port on the ground end to connect your mobile device and keep its battery from running down. (DJLIGHTBRIDGE).....**1399.00**

XPROHELI XP2 Basic Quadcopter RTF with Spektrum DX6i Transmitter (No GPS)

Remote controlled, four-propeller quadcopter with a camera mount designed for lightweight HD cameras from GoPro, Sony and more. 10" propellers and brushless Cobra motors can support payload up to 14.1 oz. Three included lithium-polymer batteries each support up to 15 minutes of sustained flight time, depending on aircraft payload and flying conditions. The XP2 Basic uses the DJI Naza-M computerized flight control system. It does not include a GPS module, however one can be added later on. Because these is no GPS data, certain features of the NAZA-M system will not be available. The Spektrum DX6i 6-Channel DSMX Transmitter is a hand-held, 2.4 GHz radio controller with dual joysticks, toggles and buttons designed to simulate the experience of flying a full-scale aircraft. The DX6i comes pre-bound to the XP2, and works exclusively in Mode 2 operation. (XP2BASIC).....**1982.00**

VIXIA mini ♦ mini X Compact Personal Camcorders

Pocket size, they feature 12.8MP HS CMOS sensor and DIGIC DV 4 processor to capture Full HD video and up to 12MP photos to memory cards. They have a Canon f/2.8 fisheye lens with a 160° viewing angle for video and a 170° viewing angle for photos. You can also choose between a Wide or Close-Up shooting mode. Users can view the scene as they record. Built-in Wi-Fi lets you share videos and photos on YouTube and Facebook, send content to a PC, or upload photos and video to iOS mobile devices. Live Streaming feature allows users to view and record on compatible iOS or Android devices and to control the VIXIA mini from remote locations. The Vixia mini has a 2.7" touch-panel LCD monitor with tilt control, stereo mic, built-in adjustable stand and a tripod socket. It features slow and fast motion recording, interval recording, Smart AUTO, Video Snapshot, and Special Scene Modes. Stepping up, the VIXIA mini X lets you record in Full HD in MP4 (30p/24p) or AVCHD (60i), features Linear PCM audio recording, built-in high quality stereo mic, Electronic Image Stabilization, embedded time code, and HDMI output. Built-in auxiliary mic/headphone terminal includes a manual audio level control, providing enhanced level of audio customization. Last, can attach to the optional Pan Table base allowing use as a baby monitor or security camera.

VIXIA HF R500 ♦ HF R50 ♦ HF R52 Full HD Flash Memory Camcorders

The affordable VIXIA HF R series capture 1920 x 1080/60p HD video (24p and 30p) and photos via 3.28-megapixel Full HD CMOS Image Sensor. They feature Canon 32x optical and 57x Advanced Zoom and SuperRange Optical Image Stabilization, 3" Touch Panel LCD, external mic input and headphone jack, Advanced Baby Mode, Audio Scene Select, Cinema-Look Filters and can record in AVCHD or MP4 format – or both simultaneously. Otherwise the same, the HF R500 records directly to SDXC memory card, while the HF R50 and HF R52 add Wi-Fi, mobile sharing and remote monitoring capability.

- Intelligent IS automatically chooses from four different modes to optimize image stabilization for the shooting condition.
- HF R52 and HF R50 (only) can record, zoom, and live stream video on supported devices. You can also send video directly to a compatible smartphone or tablet for instant online sharing.
- HF R52 and HF R50 (only) can attach to the optional Pan Table base allowing them to act as a baby monitor or security camera. With free app users can choose to have the camcorder oscillate left to right up to 200°. The Pan Table can also be manually adjusted for a tilt of up to 20°.

VIXIA HF G20 Full HD Flash Memory Camcorder

The HF G20 records 1920 x 1080 Full HD video at 60i, in native 24p and 30p. Cinema-Looks Filters can boost the 24p film look with multiple built-in adjustable filters. Canon 10x HD Video Lens with an 8-blade iris delivers professional-looking video and stills. Canon HD CMOS Pro image sensor supports low-light performance and a wide dynamic range. Pre-Record feature allows you to automatically capture three seconds of footage before you press the record button. Also features 32GB of memory plus two SDHC/SDXC slots, Dynamic SuperRange Optical Image Stabilization, 3.5" (922K-dot) touch panel LCD, 0.24" color viewfinder, and a 58mm filter diameter.

- Seven Cinema-Look Filters give the look of a variety of cinematic styles by compensating for the color, gamma and other aspects of the image's quality. The looks can be previewed in the LCD display while shooting, and also applied post-capture.
- Choose from Cinema Standard, Dream, Old Movies, Vivid, Cool, Nostalgic, Dramatic B&W, Memory or Sepia. The brightness of each filter can be adjusted. When Cinema Standard is selected, color depth, softening, and contrast can also be adjusted.

#CAHFG20.....**899.00**

VIXIA HF G30 Full HD Flash Memory Camcorder

Stepping up the HF G30 features a powerful 20x f/1.8 Genuine Canon HD Video Lens, MP4 recording, and built-in Wi-Fi capability. The lens uses Hi-UD (Hi Index Ultra Low Dispersion) technology found in Canon's XF pro camcorders, helping reduce chromatic aberrations throughout the zoom range. Wi-Fi remote feature allows users to control the camcorder and change settings via the web when using a tablet, smartphone or PC. Dual band wireless support (5GHz & 2.4GHz) improves signal strength in areas with signal interference.

- Both 1080/60p MP4 and AVCHD recording are available through Dual Recording feature.
- Brilliant 3.5" OLED Touch Panel Display lets you control focus, exposure, and track subjects with a swipe or touch of the screen.
- Advanced features include manual color temperature adjustment (2,000K-15,000K in 100K increments), color bars with test tone, manual shutter speed and aperture control, and built-in Remote Control Terminal (supports LANC).
- Mini Advanced Accessory Shoe as well as a cold shoe, allows users to add external mics or additional lighting. In addition, the audio jack includes headphone and microphone terminals.
- 0.24" high-resolution (1.56-million-dot) angle-adjustable color viewfinder (CVF) with a large-sized eyecup. The CVF can be tilted at a 45° angle, improving operation during low-angle shooting.

**Panasonic HC-V130 • HC-V250 • HC-V550 • HC-V750 • HC-W850**

Compact Full-HD MOS Camcorders

They feature a compact body, ultra-telephoto zoom, auto/manual focus and iris, and creative controls including Miniature Effect, Silent Movie, 8mm Movie and Time Lapse recording.

The HC-V130 has a 38x optical zoom, the HC-V250 and HC-V550 a 50x optical zoom, the HC-V750 and HC-W850 have a wide-angle 20x zoom.

- The HC-V250, V550, V750 and W850 have built-in Wi-Fi enabling real time broadcasting via Ustream as well as wireless TV playback with NFC. They can be connected to a smartphone or tablet in one touch—which can then be used as a live-view remote controller. They also have a Baby Monitor feature which enables users to check on a sleeping baby in another room.
- The HC-V550, V750 and W850 feature an advanced Level Shot function and 5-Axis HYBRID O.I.S. + optical image stabilizer.
- The HC-V750 and HC-W850 feature enhanced MOS sensor signals with 6.03 effective megapixels for delivering sharp video images with high resolution. They can also record slow motion video in Full-HD with smooth playback at 240fps with Intelligent Frame Creation.
- The flagship HC-W850 features a Twin Camera™ function which enables capture of two scenes at once. With a rotatable sub camera on the side of the LCD screen, users can shoot using this sub camera while also shooting with the main camera at the same time.

**Panasonic HC-X920** Full-HD 3MOS Camcorder

Records bright 1920 x 1080p video even under dim lighting, while minimizing noise. It features built-in Wi-Fi with Live Channel Video Streaming via Ustream, 5.1-channel surround sound, 12x optical zoom and 29.8mm wide-angle Leica lens, and 5-Axis HYBRID O.I.S. +.

It can shoot 20.4MP stills as well as full-HD 3D (in the AVCHD 3D format) with the optional VW-CLT2 3D conversion lens. iA function automatically selects the most suitable shooting mode, plus there is a manual ring for fingertip-control of focus, zoom, exposure, shutter speed and white balance. There is a high resolution (1,150,000-dot) 3.5" Touch Screen LCD plus an extendable 263K-dot EVF (electronic viewfinder) for convenient focusing under bright sunlight.

HC-X920 (PAHCX920K)**997.99** HC-X920 in PAL (PAHCX920MKE)**1099.99**

**Panasonic HC-X1000** 4K Ultra HD Camcorder

Record cinema 4K at a true 24p, and UHD at broadcast compatible frame rates, so it fits smoothly into your existing broadcast workflow. The HC-X1000 features a 1/2.3" MOS sensor that is always shooting at 4K resolution, and uses its two built-in Venus processing engines to scale the 4K image for Full HD delivery. Built-in 20x Leica Dicomar lens features electronically linked geared iris rings for manual control. The camera supports two optical image stabilization modes, one for 4K, and one for shooting in HD. There are two viewfinders, 0.45" tilt up color EVF, or a pull out 3.5" high resolution LCD touchscreen positioned above the lens for a more natural viewing experience when shooting handheld. Has a built in mic plus two XLR audio inputs for line or mic level input. Records in MP4, MOV or AVCHD formats to SDXC cards. Wi-Fi and NFC connectivity let you control and monitor the HC-X1000 in real time from a distance using your smartphone or tablet. (PAHCX1000K)**3497.99**

**Panasonic****HX-WA3**

Full HD Active Lifestyle Camcorder

Ready to go anywhere—the HX-WA3 features a "Triple Proof" tough design, which means the camera is waterproof to 16', freezeproof to 14°F, and has a rating of IP6X. MOS sensor and high-quality image engine enable capture of Full HD 1920 x 1080 60i/30p and 720/60p video and 16MP still photos. It features 18x Intelligent Zoom, 2.6" flip-out LCD, creative controls with 12 filters, panorama mode and HDR Backlight Compensation.

- iFrame Mode
- Macro shooting to .39"
- Built-in lithium-ion battery
- Pistol grip design
- Eye-Fi Card compatibility
- Record to SDHC/SDXC cards

SONY

HDR-CX240 • HDR-CX330 Flash Memory HD Camcorders

The HDR-CX240 features Full HD 1080/60p video, Exmor R CMOS sensor, wide angle Zeiss Lens with 27x optical and 54x digital zoom, and SteadyShot stabilization with Active Mode, and 3-Way-Shake-Canceling. Also features 9.2MP still image capture, 2.7" Clear Photo LCD, seven Picture Effects for video and stills, and can record HD video in top-quality AVCHD or web-friendly MP4 formats – or both simultaneously. Otherwise the same the HDR-CX330 has a Sony G 26.8mm lens with 30x optical zoom plus 60x Clear Image digital zoom. Built-in NFC and Wi-Fi allows you to turn your smartphone and/or tablet into a remote control/viewing device. You can also wirelessly transfer your files to your mobile device for instant sharing, back up or to watch them on a TV.

HDR-CX240 in Black (SOHDRCX240B) or Blue (SOHDRCX240L)228.00 HDR-CX330 in Black (SOHDRCX330B)328.00

HDR-CX900 Flash Memory HD Camcorder

Broadcast-quality HD video in the palm of your hand. 1" Exmor R CMOS sensor is almost 8x larger than that of typical camcorders, allowing you to capture cinematic images with shallow depth-of-field for defocused backgrounds. Features a wide-angle Vario Sonnar T* lens with 12x optical zoom plus 24x Clear Image digital zoom, and SteadyShot stabilization with Active Mode and 3-Way-Shake-Canceling. Capture Full HD 1920 x 1080 video in XAVC S, AVCHD, or MP4. You can also capture 20MP still images. Frame your shots using the 3.5" XtraFine LCD touchscreen, or the high-contrast 0.39" OLED EVF. Lens ring and manual dial enables full control of focus, zoom, exposure, gain/ISO and shutter speed. It has a USB 2.0 port, Micro HDMI and composite video outputs and Multi Interface Shoe. Built-in Wi-Fi and NFC lets you use your smartphone or tablet to control the camera, as well as wirelessly transfer files for sharing, and back up. (SOHDRCX900B)1498.00

FDR-AX100 Digital 4K Camcorder

Featuring a large 14.2MP back-illuminated 1" Exmor CMOS sensor, the FDR-AX100 captures flawless 4K Ultra HD images (3840 x 2160) while also allowing beautiful "bokeh" background defocusing effects, even in low light. BIONZ X processor makes it possible to record 24p and 30p movies at full resolution and play them back with incredibly smooth, sharp motion. Equipped with wide-angle Zeiss Vario Sonnar T* lens with 12x optical zoom plus 24x Clear Image digital zoom. Optical SteadyShot image stabilization with Active Mode delivers smooth video, and 3-Way-Shake-Canceling adds electronic roll stability. You can also record Full HD 1920 x 1080 video in XAVC S, AVCHD, or web-optimized MP4, as well as high-quality 20MP still images. Frame your shots using the 3.5" XtraFine LCD touchscreen, or high-contrast 0.39" OLED EVF. Built-in Wi-Fi and NFC lets you use your smartphone or tablet to control the camera, as well as wirelessly transfer files to your mobile device for sharing, and back up data on your computer. (SOFDRAX100)1998.00

HDR-PJ275 • HDR-PJ340 • HDR-PJ540 • HDR-PJ650 • HDR-PJ810

HD Camcorders with Built-in Video Projector

These unique camcorders beam big, bright images onto any handy wall or white surface to create your own impromptu cinema. View mini-movie screenings while you're travelling with no PC. They also have an external device input, so you can hook up a digital camera, notebook or smartphone and enjoy super-sized images, wherever you are.

- HDR-PJ275 has a 13 lumen projector that can project video at up to a 100". It records Full HD 1920 x 1080 video at 60p and 9.2MP still images to 8GB of memory or memory cards. It has an Exmor R CMOS sensor and wide-angle Zeiss lens with 27x optical and 54x digital zoom. For smooth video, it has SteadyShot stabilization with Active Mode, and 3-Way-Shake-Canceling. Simultaneously capture AVCHD and MP4 files. Built-in Wi-Fi and NFC support lets you use your smartphone or tablet to control the camera, as well as wirelessly transfer files to your mobile device for sharing, and back up data on your computer.
- HDR-PJ340 steps up with wide angle 26.8mm Sony G Lens with 30x optical and 60x digital zoom, Optical SteadyShot image stabilization with Intelligent Active mode, and 16GB memory.
- HDR-PJ540 steps up with bright 25 lumens projection, 5.1 channel mic, 3.0" wide touch screen Clear Photo LCD display (460K), Balanced Optical SteadyShot image stabilization, and 32GB memory.
- HDR-PJ650 steps up wide-angle Sony G zoom lens with 12x optical and 20x digital zoom, 0.27" Color EVF and 3.0" LCD touchscreen with 921K dot resolution. It records Full HD 1920 x 1080 video at 60p and 24p20P still images to 32GB of memory or memory cards.
- HDR-PJ810 steps up with super bright 50 lumens projection up to 200" with electronically keystone correction, wide-angle Sony G zoom lens with 12x optical and 24x digital zoom, 24.5 MP still shot, manual control (iris/shutter/exposure/white balance), advanced controls with expanded focus, zebra, and peaking, touch screen 3.0" type Xtra Fine LCD with WhiteMagic (921K), color and EVF (electronic viewfinder).

WATSON™

Video Batteries and Chargers

Small and lightweight, Watson's lithium-ion batteries are virtually the same as the manufacturers original, but only about 70% of the cost. They can be charged or discharged at any time without developing memory effect. Don't wait for your one and only battery to charge before you can record again, carry a spare and keep on shooting.

Equivalent for Canon Lithium-Ion Batteries

Duo Battery Charger

Charges two batteries simultaneously, drawing power from an AC wall source (an AC cord is included) or a 12/24V DC power source (DC car charger is also included). Additionally, the Duo Charger features a USB power output to charge & power MP3 players, phones, digital cameras, and other devices with a USB power input.

With two easily interchangeable plates, the intelligent charger can also be used for other battery models – via the separate purchase of an additional battery plate.

LCD display graphically shows charge status for both batteries.

This allows you to test batteries instantaneously, so you can easily decide which Li-ion cells to bring with you for the day. With protection against overcharging, overheating, and short circuit, it safely, and quickly recharges two compatible Li-ion batteries and one USB-powered device.

audio-technica. ATR6250

Stereo Condenser Mic

- High-quality stereo pickup in a single mic
- Includes a short camera cable and a long recording cable, a professional camera mount, interchangeable mic-stand base, a foam windscreen, two 1/8" to 1/4" mono adapters, and a 'AA' battery.

#AUATR6250Call or Log-on

audio-technica. ATR6550

Condenser Shotgun Microphone

- Crisp and intelligible pickup
- Two range settings: Normal for close and medium-distance; Tele for long-distance
- Includes camera mount, microphone stand clamp, foam windscreen, 1/4" adapter plug and 'AA' battery

#AUATR6550Call or Log-on

AZDEN SMX-10

Directional Stereo Camera Mic

- Shoe-mount stereo camcorder microphone
- Runs on AAA battery
- Low frequency roll-off
- Attached stereo mini output cable
- Includes windscreen

#AZSMX10Call or Log-on

AZDEN SGM-990

Dual-Pattern Shotgun Mic

- 2-position switch for narrow and wider polar patterns
- Picks up your subject's sound more clearly, reducing side noises (35° range)
- Runs on one 'AAA' battery

#AZSGM99085.00

MXL FR-310

Hot Shoe Shotgun Microphone

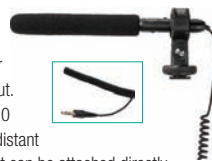

- Supercardioid condenser video mic for mounting on a camcorder or DSLR via the hot shoe. Sounds from the sides and rear are rejected for more focused sound. Features 3-position gain switch, bass roll-off (high-pass filter) and integrated foam windscreen. Runs 500 hours on a AAA battery and includes aluminum case. (MXFR310).....

129.95

**MS-66-K DSLR/Video Mini Shotgun Microphone Kit**

- Pen-sized, 6" hypercardioid mic designed for recording audio directly to DSLR or camcorder via 3.5mm stereo output. Gain can be adjusted between 0, 10 and 20dB, allowing you to record distant subjects. The included shockmount can be attached directly to a camera or boom pole. (SEMS66K).....

99.00

**RØDE VideoMic**

with Rycote Lyre Suspension System

- Shoe-mountable shotgun mic with stereo mini-jack
- Integrated shock mount
- Switchable high-pass filter
- 9V battery powered
- Rycote Lyre acoustically decouples the mic from unwanted vibrations and handling noise
